

Conference Center Room Configurations

The Conference Center is 2,090 square feet and is the following dimensions.

There are a few possible configurations for the Conference Center. There are two sides to the room, which can be divided with a hanging wall. Each side has an independent projection system for video, computer playback, presentations, etc. The measurement from floor-to-ceiling is 11'.

Alternately, the room can be combined to create one large conference space.

The room can be configured:

- **Auditorium-Style** with seating rows
(Capacity: 106/110 or 216 combined)
- **Conference/Classroom-Style** with chairs at long tables
(Capacity: 16/18 or 68 combined)
- **Reception-Style** with large round tables
(Capacity: 110 combined at 11 tables)

Equipment:

(2) x A/V Cart (Computer & document projector)

(216) x Conference Chairs

(34) x 18" x 72" Rolling Tables (Each seats 2)

(11) x 72" Round Tables

(2) x Portable Bars (43" long and 63" long)

(6) x 8' Tables
