

New E&I Cooperative Rental Car Contract with Enterprise/National

Dear Travel Customers,

Recognizing that the State of Florida rental car contract with Avis Budget Group cannot always effectively meet all USF travel requirements, we are pleased to announce that USF is now participating in the E&I Cooperative Services rental car program and adding **Enterprise and National** as a secondary alternative when the State of Florida contract with Avis Budget group cannot meet business needs.

This new contract offers more competitive rates than available on the open market and includes insurance coverage. USF travelers forced to rent outside the State of Florida contract with Avis Budget Group are encouraged to consider use of this contract.

Please visit the [Travel website](#) to learn more about this rental car contract. The updated Travel Manual reflects this change and is also posted to the Travel website.
